

Colorado BioScience ASSOCIATION

Committee Overview:

Colorado BioScience Association (CBSA) members drive our public policy agenda through the Public Affairs & Government Relations Committee. The committee develops and implements strategies to fulfill the bioscience community's public policy objectives at the state and federal level. Priority activities include: promote increased access to capital, promote a supportive tax and regulatory environment, encourage economic development, support higher education and promote university research and technology transfer activities, among other issues.

Expectations and Purpose:

- Educate CBSA members about the legislative process and its importance to the industry
- Host educational roundtables, company tours and meet one-on-one with federal and state legislators to discuss and showcase the bioscience industry
- Initiate, support or oppose legislation on the state and federal level that affects the industry
- Provide expert testimony during legislative hearings
- Work closely with allied industries or professionals on legislative issues of mutual interest

How to Get Involved:

If you are interested in joining the Public Affairs and Government Relations Committee, please contact Jennifer Jones, CBSA Vice President, at jjones@cobioscience.com or 303-592-4072.

Meeting Schedule:

The committee meets on the first Tuesday of every month (monthly date subject to change due to holidays and industry-related events) from 12:00-1:30 pm at the CBSA offices.

Ad hoc meetings and emails to the committee for input on specific legislation or issues will be sent on an as-needed basis.
